

SENATOR WEHRBEIN: Well, I don't know.

PRESIDENT MOUL: One minute.

SENATOR WEHRBEIN: Back to the definition of taxpayer, Senator Haberman. But it does say back here on page 24, a taxpayer who keeps his or her regular books and records on a cash basis, an accrual basis, or any generally recognized accounting basis which correctly reflects the operation of the business may file the sales. So I think we're talking about a businessman.

SENATOR HABERMAN: Thank you, Senator Wehrbein. Let's see, let's talk to Senator Conway. Senator Conway, page 33, line 12, the Legislature shall appropriate \$17,900,000 of all funds collected by a general sales tax and income tax for aid to the incorporated municipalities, and \$13,500,000 for aid to the counties. Do we have anything in here where that's replaced?

SENATOR CONWAY: Where that is what?

SENATOR HABERMAN: Is replaced.

SENATOR CONWAY: With what, Senator Haberman?

SENATOR HABERMAN: If we're going to...well, the monies...

PRESIDENT MOUL: Time.

SENATOR HABERMAN: That wasn't very nice.

PRESIDENT MOUL: Thank you, Senator Haberman. Senator Hall, do you wish to be recognized?

SENATOR HALL: Yes, Madam President, I rise for a point of order. I would like to request that the amendment Senator Warner offers to his amendment be divided into three parts and I placed that upon the Clerk's desk. The first part being Sections 100 and 101 of the bill or of the amendment, pages 1 to 6 of that amendment; the second part being the new Sections 178 and 179 on pages 6 and 7 of the amendment; and the third part being new Sections 180 to 186 which are the balance of the amendment. I would respectfully ask that they be divided and then it would be my intention to ask for a germaneness ruling on the last two sections of that when they come up, depending on what order Senator Warner wishes to take them in.
